#### 1. Qualitative Information on Quarterly Financial Results

#### (1) Explanation of Operating Results

Forward-looking statements in this document are based on the judgments of the Group (the Company and its consolidated subsidiaries) as of the end of the third quarter of the fiscal year under review.

During the nine months ended September 30, 2021, under a severe condition due to the impact of the novel coronavirus (COVID-19), the Japanese economy saw visible signs of a gradual recovery as a result of an array of government policies including measures to prevent the spread of infections. Nonetheless, there will continue to be the need to keep a close eye on trends of the infections both in and outside of Japan and fluctuations in financial capital markets, etc. Under these circumstances, in line with our brand statement, "Shaping the Future of Commerce," the Company has worked to further improve its social and economic value by providing competitive value-added products and services to promote information distribution in addition to its B2B information distribution intermediary businesses.

As a result, for the nine months ended September 30, 2021, net sales were \(\frac{\text{\frac{27}}}{27,263,383}\) thousand (up 72.9% from the same period of the previous fiscal year), operating profit was \(\frac{\text{\frac{4}}}{4,797,056}\) thousand (up 73.8% from the same period of the previous fiscal year), ordinary profit was \(\frac{\text{\frac{4}}}{5,013,436}\) thousand (up 82.5% from the same period of the previous fiscal year), and profit attributable to owners of parent was \(\frac{\text{\frac{4}}}{3,049,687}\) thousand (up 88.3% from the same period of the previous fiscal year).

Performance results by business segment are as follows.

In view of the growing scale of business in auctions for pre-owned luxury brand items and other services, the Company has changed its segments from the fiscal year ended December 31, 2020. The "Other Information Distribution Business" segment, which comprised auctions for pre-owned luxury brand items, used motorcycles, and flowers, has been discontinued. Auctions for pre-owned luxury brand items are now included in the new "Consumer Product Business" segment, while auctions for used motorcycles and flowers have been consolidated into the existing "Others" segment.

For the following comparison with the previous year, the figures are compared by restating the figures of the previous year to match the new segment classification.

#### (Automobile Business)

The Automobile Business comprises the Company's mainstay used vehicle auctions (\*1), shared inventory market (\*2), live linked auctions (\*3), proxy bidding service (\*4), used vehicle inspection service (\*5), and other services.

In the Japanese automotive sector, which has close connections with our business, total new-vehicle registrations (\*6) increased 2.3% year-on-year to 3.48 million units in the nine months ended September 30, 2021. The total number of used-vehicle registrations (\*7) decreased 0.0% year-on-year to 5.17 million units, and the number of vehicles listed (\*8) at auctions around Japan increased 1.2% year-on-year to 5.36 million units. The total number of vehicles sold at auction (\*8) increased 8.6% year-on-year to 3.64 million units.

Demand for used vehicles continued to rise from the second quarter due to prolonged delivery lead times for new vehicles caused by a shortage of semiconductors and insufficient supply of new vehicles mainly stemming from reduced production by automakers. Entering the third quarter, the supply shortages of used vehicles became even more obvious. Under these circumstances, the number of vehicles sold in our used vehicle auctions, as well as the number of vehicles bought in our live linked auctions and proxy bidding service remained at low levels, although surpassing the year-earlier results that showed significant declines due to the impact of the spread of COVID-19.

In the used vehicle inspection service, the number of vehicles inspected in the physical auction sites and AUCNET-hosted auctions slowed down due to the market conditions, while the number of vehicles inspected

for a used vehicle listing platform continued to be favorable from the second quarter, thus contributing to segment net sales and income.

As a result, for the nine months ended September 30, 2021, net sales (including inter-segment net sales) were \$9,148,701 thousand (up 5.1% from the same period of the previous year), and operating profit was \$2,892,206 thousand (up 10.2% from the same period of the previous year).

- (\*1) The used vehicle auctions are real-time, members-only online auctions run by the Company.
- (\*2) The shared inventory market is a system that allows Aucnet Group member sellers to share inventory with other members online. The inventory remains at the seller's premises while other members access it via the online system.
- (\*3) The live-linked auctions use an online live-link system that enables real-time remote access to participate at physical auction sites, through partnerships between AUCNET and the physical auction sites.
- (\*4) The proxy bidding service is an agency service provided by i-Auc, Inc. to buy, sell, settle payment for and transport used vehicles at auctions on behalf of its members.
- (\*5) The used vehicle inspection service and related inspection skills training services are provided by AIS INC.
- (\*6) Based on statistics compiled by Japan Automobile Dealers Association
- (\*7) Based on statistics compiled by Japan Automobile Dealers Association and Japan Light Motor Vehicle and Motorcycle Association
- (\*8) Based on U-Car Full Data Book and Export Quotation Book

#### (Digital Product Business)

The Digital Product Business comprises auctions for used digital equipment including used smartphones and used PCs, and services pertaining to distribution.

In Japan, although the increasing trend in the number of sales unit until the second quarter somewhat settled down due to restrained purchases of smartphones prior to the launch of new models, the number of sales unit in the third quarter (the three-month period) increased from the same period of the previous year. In addition, our long-standing efforts for strengthening sales capability primarily through expanding overseas buyer network were successful, maintaining unit prices of devices high. In addition to this, the Company streamlined its operations and conducted a cost review, etc., thereby leading to a significant improvement in profit margin.

In the U.S. business, the deficit margin has narrowed on the profit side, mainly in the merchandising business. However, in addition to the impact of travel restrictions and other issues caused by the spread of COVID-19, business maintenance costs such as labor costs have been soaring in the areas where our operation centers are located. Due mainly to these factors, the business environment underwent major changes, which led to the decision to review the current business at the end of October.

As a result, for the nine months ended September 30, 2021, net sales were \(\frac{1}{2}\)5,353,318 thousand (up 25.0% from the same period of the previous year), and operating profit was \(\frac{1}{2}\)3,010,151 thousand (up 66.6% from the same period of the previous year).

#### (Consumer Product Business)

The Consumer Product Business comprises auctions for pre-owned luxury brand items and services pertaining to distribution, including those targeting consumers.

In the B2B business, demand for online auctions remained strong, and partially supported by higher average price of units sold, which was buoyed by soaring market prices, the transaction amount expanded both in and outside of Japan. Although costs increased due to the relocation of the operation center and an increase in the number of employees for the purpose of expanding the scale and streamlining operations, profit for the nine months ended September 30, 2021 increased from the same period of the previous year.

In the business targeting consumers, GALLERY RARE Ltd. which was made into a consolidated subsidiary in October last year, posted favorable performance. In addition to this, strict cost control through

PMI, among other factors, also contributed to segment profit.

As a result, for the nine months ended September 30, 2021, net sales were \(\frac{\pmathbf{\p

#### (Others)

The Others segment comprises auctions for used motorcycles and flowers, medical-related businesses, and overseas businesses.

In this segment, for the nine months ended September 30, 2021, net sales (including inter-segment net sales) were \(\frac{\pma}{2}\),700,470 thousand (up 18.2% from the same period of the previous year), and operating loss was \(\frac{\pma}{167}\),882 thousand (the operating loss for the same period of the previous year was \(\frac{\pma}{2}\)255,799 thousand).

#### (2) Explanation of Financial Position

Total assets as of the end of the third quarter of the current fiscal year amounted to \(\frac{\pmathbf{x}}{37,078,185}\) thousand, an increase of \(\frac{\pmathbf{x}}{3,797,362}\) thousand from the end of the previous fiscal year. This is mainly attributable to a \(\frac{\pmathbf{x}}{2,990,643}\) thousand increase in cash and deposits, a \(\frac{\pmathbf{x}}{264,846}\) thousand increase in inventories and a \(\frac{\pmathbf{x}}{1,132,054}\) thousand increase in due from auction members, despite a \(\frac{\pmathbf{x}}{258,351}\) thousand decrease in other intangible assets and a \(\frac{\pmathbf{x}}{388,188}\) thousand decrease in investments and other assets.

Total liabilities amounted to \$14,922,400 thousand, an increase of \$1,279,263 thousand from the end of the previous fiscal year. This is mainly attributable to a \$1,146,935 thousand increase in due to auction members, a \$358,975 thousand increase in income taxes payable and a \$125,898 thousand increase in other provisions, despite a \$364,999 thousand decrease in other current liabilities.

Total net assets amounted to \(\frac{\text{\$\tex{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\text{\$\

#### (3) Explanation of Consolidated Performance Forecast and Other Forward-looking Information

There is no change to the performance forecast announced on August 10, 2021.

(3) Notes to Quarterly Consolidated Financial Statements (Notes on going concern assumption)

Not applicable.

(Notes in case of significant changes in amount of shareholders' equity)

Not applicable.

(Accounting methods adopted particularly for the preparation of quarterly consolidated financial statements)

Tax expenses are calculated by making a reasonable estimate of the effective tax rate after application of taxeffect accounting to profit before income taxes for the fiscal year (consolidated) including the third quarter of the fiscal year under review, with quarterly profit before income taxes then multiplied by the estimated effective tax rate.

However, in the event that this tax expense calculation using estimated effective tax rate results in a significantly improbable figure, a method using the statutory effective tax rate may be adopted.

(Segment information, etc.)

[Segment information]

For the nine months ended September 30, 2020 (from January 1, 2020 to September 30, 2020)

1. Information on net sales and income (loss) by reportable segment

(Thousand yen)

		Reportabl	e segment					Amount
	Automobile Business	Digital Product Business	Consumer Product Business	Total	Others (Note 1)	Total	Adjustment (Note 2)	recorded in Quarterly Consolidated Statements of Income (Note 3)

Net sales to outside customers	9,048,732	5,353,318	10,451,134	24,853,186	2,410,197	27,263,383	_	27,263,383
Inter-segment net sales or transfers	99,968	_	_	99,968	290,272	390,241	(390,241)	_
Total	9,148,701	5,353,318	10,451,134	24,953,154	2,700,470	27,653,624	(390,241)	27,263,383
Segment income (loss)	2,892,206	3,010,151	921,685	6,824,042	(167,882)	6,656,160	(1,859,103)	4,797,056

- (Notes) 1. "Others" is the segment which is not included in reportable segments, including such businesses as auctions for used motorcycles and flowers, medical-related businesses, and overseas businesses.
  - 2. Adjustment of segment income (loss) of negative \(\pm\)1,859,103 thousand is corporate expenses of negative \(\pm\)1,859,103 thousand, which chiefly comprise general and administrative expenses not allocated to specific reportable segments.
  - 3. Adjustments are made to reconcile segment income (loss) with operating profit reported on the quarterly consolidated statements of income.
- 2. Reporting segment-specific information on impairment loss on non-current assets and details of goodwill, etc.

Not applicable.

3. Change to reportable segments, etc.

In view of the growing scale of business in auctions for pre-owned luxury brand items and other services, the Company has changed its segments from the fiscal year ended December 31, 2020. The "Other Information Distribution Business" segment, which comprised auctions for pre-owned luxury brand items, used motorcycles, and flowers, has been discontinued. Auctions for pre-owned luxury brand items are now included in the new "Consumer Product Business" segment, while auctions for used motorcycles and flowers have been consolidated into the existing "Others" segment.

Since the segment information for the third quarter of the previous fiscal year disclosed as information compared with the third quarter of the current fiscal year has been prepared based on the reportable segments after the change, there are differences from the reportable segments pertaining to the third quarter disclosed in the previous fiscal year.
