It was approved by the resolution at the 68th Annual General Meeting of Shareholders held on June 29, 2016, that the amount of remuneration, etc., to the Company's Directors (excluding those who are Audit and Supervisory Committee Members) shall be no more than 700 million yen per year (out of this amount, the amount of remuneration, etc., to Outside Directors shall be no more than 50 million yen per year; provided, however, that the amount shall not include amount of employee salaries payable to Directors who are also employees) and that, to the extent of said amount of remuneration, etc., the amount of remuneration, etc., to the Company's Directors (excluding those who are Audit and Supervisory Committee Members) in the form of stock-based compensation stock options shall be no more than 55 million yen per year (out of this amount, the amount of remuneration, etc., to Outside Directors in the form of stock-based compensation stock options shall be no more than 5 million yen per year).

With the aim of giving even more incentive for Directors of the Company (excluding Directors who are Audit and Supervisory Committee Members; hereinafter referred to as "Eligible Directors") to undertake sustainable enhancement of the Company's corporate value and of further promoting value-sharing with shareholders, the Company hereby proposes, as a part of the revision to the remuneration for officers, that the aforementioned amount of remuneration, etc., in the form of stock-based compensation stock options be discontinued and that the compensation for the granting of restricted stocks be newly provided to the Eligible Directors.

Under this Proposal, the compensation to be provided to the Eligible Directors for the granting of restricted stocks will be monetary receivables (hereinafter referred to as "Monetary Compensation Receivables"), the total amount of which shall be no more than 55 million yen per year (out of this amount, the amount of compensation to Outside Directors shall be no more than 5 million yen per year), to the extent of the amount of remuneration, etc., to Directors (excluding those who are Audit and Supervisory Committee Members). This amount deemed reasonable considering the aforementioned purpose and the various factors including the contribution of the Eligible Directors to the Company comprehensively. Furthermore, the specific timing of the provision and the allocation to each Eligible Director shall be determined at a meeting of the Board of Directors of the Company. The total amount of the aforementioned Monetary Compensation Receivables shall not include amount of employee salaries payable to Directors who are also employees.

Business Report

[from April 1, 2016 to March 31, 2017]

1. Current Situation of the Corporate Group

(1) Business Conditions for the Current Fiscal Year

1) Business Progress and Results

During the consolidated fiscal year under review, the prescription pharmaceuticals market recorded significant negative year-on-year growth despite a contribution from new drugs such as cancer drugs, due to promotion of measures to curtail medical expenses such as the 7.8% reduction in the NHI drug prices including exceptions to repricing measures for market expansion in April 2016 and the revision of medical treatment fees for accelerating further use of generic drugs as well as a rapid shrinking of the market for the curative drugs for hepatitis C which had grown sharply in the previous year.

Under these circumstances, the Group has, as a corporate group engaged in the areas of medical care, healthcare, and nursing care with the pharmaceutical wholesaling and the dispensing pharmacy business as its two business pillars, developed and proposed a variety of customer support systems to offer solutions to problems faced by patients and medical institutions and contributed to a community comprehensive healthcare system, thereby promoting a shift to a business model that focuses on value-added services that are useful in a wide range of situations.

Regarding KYOSOMIRAI PHARMA CO., LTD. we established in November 2016, with the launch of two ingredients/three products listed on the NHI drug prices as a supplement in December 2016, it has got off to a good start as witnessed by strong sales and profit results. KYOSOMIRAI PHARMA aims to establish a business scheme of integrated manufacture and sales which accurately respond to customers' demands and to stably and effectively provide prescription pharmaceuticals centered on high quality and high value-added generic drugs.

In the pharmaceutical wholesaling business, we strove to secure appropriate profits and expand fee businesses by focusing on proposal of the Company's unique customer support systems. In addition, in order to improve productivity, we continued a fundamental review of existing operations and promoted total workforce optimization through consolidation of indirect operations.

In the dispensing pharmacy business, we endeavored to improve profitability by: having each pharmacy promote measures to establish functions tailored to the dispensing fee revision; providing high value-added services that meet customers' needs through community healthcare-based store management; and increasing management efficiency through standardization of store operations and consolidation of some operations into the headquarters.

As a result, the increasing number of contracts for "ENIFvoice SP", a voice-recognition electronic medication history recording support system, and "initial examination reservation service" as well as steady sales of other customer support systems contributed to earnings of the business. However, having been heavily affected by the negative growth of the prescription pharmaceuticals market and the shrinkage of the market for the curative drugs for hepatitis C, for the consolidated fiscal year under review the pharmaceutical wholesaling business posted net sales of 1,231,046 million yen (down 5.9% from the previous year), operating income of 14,244 million yen (down 50.2% from the previous year), ordinary income of 19,844 million yen (down 42.5% from the previous year), and profit attributable to owners of parent of 14,225 million yen (down 34.7% from the previous year).

(4) Challenges to be Addressed

Setting “Total Commitment to Good Health” as our corporate slogan and under the mission statement, “Working in harmony with society and customers, and jointly creating new value through the provision of original services, thereby contributing to the improvement of medical services for, and health of, people around the world”, the Group always places ultimate priority on patients, and by making efforts to create customer value in order to increase customer satisfaction, aims to improve medium to long-term corporate value through sustainable development and establish a corporate brand.

In order to develop and maintain sustainable social security systems amidst extending healthy life expectancy, super-aging society, and decrease in the total population in Japan, the government is currently moving ahead with measures to build a “community comprehensive healthcare system” and curtail medical expenses. In an effort to reform the medical services provision framework, the focus is shifting away from all-inclusive facility care to all-inclusive community care under the community comprehensive healthcare system. Furthermore, the government has put exceptions to repricing measures for market expansion and determined basic policy regarding the fundamental reform of the NHI drug pricing system, including introduction of the once-yearly NHI drug price revision as measures to slash medical expenses. The government has also been promoting measures to encourage wider use of generic drugs.

As seen above, the environment surrounding the healthcare and pharmaceuticals industries has been changing dramatically. Under these circumstances, the Group will, as a corporate group engaged in the areas of medical care, healthcare, and nursing care, respond quickly and appropriately to the rapidly changing environment and tackle cutting-edge challenges ahead of its competitors to make a contribution to the extension of the healthy life expectancy for men and women in Japan and the establishment and maintenance of sustainable social security systems. To this end, we will develop and propose customer support systems which will help patients, medical institutions, specialists in the fields of home and nursing care, etc. to solve their problems. In the dispensing pharmacy business, we will contribute to the establishment of a community comprehensive healthcare system through measures such as propelling pharmacy function reform to transform existing pharmacies into healthcare support pharmacies and promote a shift to a business model that focuses on value-added services useful in a wide range of situations. In anticipation of the era in which generic drugs account for 80% or more of the pharmaceuticals market on a volume basis, we aim to construct a supply chain of integrated manufacture and sales to offer generic drugs whose quality is ensured by independent validation in a stable manner based on an estimate of demand. We believe this will provide solutions to problems faced by patients and medical institutions and help to increase the Group’s profitability.

Meanwhile, we will put more effort into consolidation and standardization of operations and workforce optimization on a group-wide basis so as to boost productivity, secure stable profits, and increase earnings.

Keenly aware of the public nature of our business as a medical services and healthcare company and our mission as part of the social infrastructure, we will seek to supply safe and secure pharmaceuticals by reviewing our functions from a business continuity perspective, and making the investment necessary for ensuring stable pharmaceutical supply during disasters, pandemics, etc. supported by stakeholders’ trust and cooperation.

Through the implementation of the above-mentioned measures, we will strive to become a corporate group relied upon and continuously supported by all stakeholders including patients, customers, local communities, shareholders, and employees.
