1. Overview of Operating Results

(1) Overview of operating results for the fiscal year ended March 31, 2026

During the interim period under review, the global economy remained uncertain, affected by factors such as U.S. tariff policies and soaring energy and raw material prices.

In this environment, our Group continued its efforts to develop new customers worldwide. However, Net sales have remained sluggish, while orders have increased mainly in custom-ordered equipment and sales of robots have increased in certain regions of Asia. As a result, consolidated Net sales decreased by 11.6% year-on-year to 23,101 million yen. In terms of profits, Operating profit decreased 60.8% year-on-year to 826 million yen and Ordinary profit decreased by 64.2% year-on-year to 908 million yen, due to the impact of the decrease in consolidated Net sales and the increase in personnel expenses due to proactive investment in human resources and in research and development expenses associated with development investments, both aimed at medium- to long-term growth. In addition, the Group recorded Gain on sale of investment securities as Extraordinary income, due to partial sale of investment securities aimed at reducing our strategic shareholdings and Impairment losses as Extraordinary loss, due to re-evaluated the future recoverability in light of changes in the business environment related to the consolidated subsidiary, WEMO Automation AB. As a result, Profit attributable to owners of parent decreased by 83.1% year-on-year to 286 million yen.

Operating result by product category

- < Robots > Net sales of robots increased by 438 million yen (3.0%) from the previous FY to 14,947 million yen.
- < Custom-ordered equipment > Net sales of custom-ordered equipment decreased by 3,710 million yen (54.0%) from the previous FY to 3,161 million yen.
- < Parts and maintenance service > Net sales of parts and maintenance service increased by 246 million yen (5.2%) from the previous FY to 4,992 million yen.

Operating result by segment category

- < Japan > Net sales decreased by 12.5% from the previous FY to 14,882 million yen and Operating profit decreased by 54.1% from the previous FY to 994 million yen.
- < North America > Net sales increased by 2.0% from the previous FY to 4,087 million yen and Operating loss was 128 million yen (compared to Operating loss of 117 million yen in the same period of the previous fiscal year).
- < Asia > Net sales increased by 2.9% from the previous FY to 5,559 million yen and Operating profit increased by 19.0% to 460 million yen.
- < Europe > Net sales decreased by 49.7% from the previous FY to 2,801 million yen and Operating loss was 354 million yen (compared to Operating profit of 73 million yen in the same period of the previous fiscal year).

(2) Overview of financial condition for the fiscal year ended March 31, 2026

- < Assets > Total assets decreased by 1,212 million yen from the end of the previous fiscal year to 39,832 million yen. This was mainly due to decrease of 746 million yen in Notes and accounts receivable - trade.
- < Liabilities > Total liabilities decreased by 501 million yen from the end of the previous fiscal year to 5,045 million yen. This was due to decrease of 295 million yen in Income taxes payable.
- < Net assets > Net assets decreased by 711 million yen from the end of the previous fiscal year to 34,787 million yen. This was mainly due to increase of Treasury shares by 1,000 million yen.

(3) Overview of cash flow for the fiscal year ended March 31, 2026

The balance of Cash and cash equivalents at the end of current fiscal year increased by 100 million yen from the end of the previous fiscal year to 6,928 million yen. Main reasons are as follows.

< Cash flow from operating activities >

Mainly due to 568 million yen in Profit before income taxes and 867 million yen in Impairment losses, Cash flow from operating activities was a net inflow of 1,350 million yen (it was a net outflow of 377 million yen in the previous fiscal year.)

< Cash flow from investment activities >

Mainly due to income of 591 million yen in selling Investment securities and outgo of 319 million yen in purchasing of Property, plant and equipment, Cash flow from investment activities was a net inflow of 189 million yen (it was a net outflow of 129 million yen in the previous fiscal year.)

< Cash flow from financing activities >

Mainly due to outgo of 1,000 million yen in purchasing Treasury shares and of 680 million yen in paying Dividends, Cash flow from financing activities was a net outflow of 1,739 million yen (it was a net outflow of 720 million yen in the previous fiscal year).

(4) Business forecasts

As for the external environment surrounding our Group, capital investment demand remains weak in some regions such as the United States and Europe, and the global economy remains uncertain, but the trend toward production automation aimed at improving labor safety, increasing production efficiency and solving labor shortages is expected to continue worldwide in the medium to long term.

In this environment, our Group will aim for further growth as a leading company in the take-out robot industry.

To achieve this, we need to expand sales of take-out robots by strengthening global sales development and product competitiveness. To strengthen global sales development, we will use WEMO Automation AB in Sweden as a foothold to increase our market share in Europe, and in other regions, we will also gather accurate market information to increase our global market share. To strengthen our product competitiveness, we will continue to develop products that provide higher added value in the automation of our customers' factories. For palletizing robots, we will strengthen sales activities to promote understanding of the advantages of Cartesian robots among a wide range of users. In the area of custom-ordered equipment, we will continue to expand sales in response to growing automation needs in Japan and overseas due to labor shortages and rising labor costs, by strengthening our internal structure. In maintenance services, we will further strengthen our global network, which is one of our strengths.

Furthermore, as human capital is important for promoting these initiatives, we will promote human resource development with a focus on hiring and instilling our corporate philosophy. Also, in the aspect of promoting sustainability, we will actively make efforts to reduce various kinds of risks, mainly through activities of four subcommittees under the Sustainability Committee established in March 2025: Compliance, Human Rights, Crisis Management, and IT Security.

Our current forecast for the fiscal year ending March 31, 2027 is as follows.

There are various factors of instability, including geopolitical risks in the Middle East, their impact on the global economy, and exchange rate trends. However, even under these circumstances, in order to achieve high growth in the future, we will continue to actively invest in human resources and in research and development and promote initiatives to improve production efficiency.

(Consolidated Earnings Forecasts)

Net sales	25,000 million yen	Y/Y	8.2 %	increase
Operating profit	1,300 million yen	Y/Y	57.3 %	increase
Ordinary profit	1,300 million yen	Y/Y	43.1 %	increase
Profit attributable to owners of parent	900 million yen	Y/Y	213.8 %	increase

2. Selection of Accounting Standards

Our Group plans to continue its policy of generating consolidated financial statements according to Japanese standards in consideration of the fact YUSHIN does not conduct global funding and to enable the comparison with other Japanese companies in the same sector.

With regard to the adoption of IFRS, we will take into account the situation across various domestic and international markets and take appropriate action.

Notes on segment information etc.

1. Overview of reportable segment

Segments used for financial reporting are the Company's constituent units for which separate financial information is available and for which the Board of Directors performs periodic studies for the purposes of determining the allocation of resources and evaluating performance.

YUSHIN carries out the development, production, sales and after-sales maintenance of robots, and peripheral equipment including labor-saving systems. In the domestic market, these operations are handled by the Company; overseas markets - North America, Asia (South Korea, Taiwan, China, Indonesia, Vietnam, Malaysia, Thailand and India) and Europe (UK, Sweden and Germany) - are serviced by local subsidiaries, including Yushin America Inc. (US), Yushin Korea Co., Ltd. (Asia), Yushin Automation Ltd. (Europe) and other local ones. The local subsidiaries are independently managed units, with separately drafted strategies and activities.

Accordingly, YUSHIN's operations, based on its production, sales and after-sales maintenance setups, are geographically grouped into four reportable segments: Japan, North America, Asia and Europe.

2. Method of calculating sales and profit (loss), identifiable assets, and other items by business segment reported

Accounting policies for the reportable business segments are the same as "Basis of Presenting Consideration Financial Statements."

Income by business segment reported is calculated based on Operating profit.

Inter-segment profit and transfer are based on realized market price basis.

3. Information related to sales and profit (loss), identifiable assets, and other items for each reportable segment
