Notes:

1. Eiji Kakiuchi is a newly nominated candidate for Director.
2. The candidates for Directors have no special interests in the Company.
3. Takayo Kotani's registered name is Takayo Oda.
4. Hiroshi Matsuhisa, Reiko Nakayama and Eiji Kakiuchi are candidates of External Directors.
5. Hiroshi Matsuhisa and Reiko Nakayama are currently External Directors of the Company. Their respective terms of office as External Directors of the Company will have reached twelve (12) years for Matsuhisa and eight (8) years for Nakayama upon the conclusion of this General Meeting of Shareholders.
6. The Company has registered Hiroshi Matsuhisa and Reiko Nakayama as Independent Officers provided in the rules of the Tokyo Stock Exchange, Inc. If Hiroshi Matsuhisa and Reiko Nakayama are reappointed, the Company plans to continue to make them Independent Officers. In addition, Eiji Kakiuchi meets the requirements for an Independent Officer as stipulated by the Tokyo Stock Exchange, Inc., and if his election is approved, the Company intends to register him as an Independent Officer.
7. During Reiko Nakayama's tenure as an Outside Director (Audit and Supervisory Committee member) of LUCKLAND CO., LTD. in July 2024, the company was required to disclose that the content of the information disclosed contained false statements and violated listing rules, and as a result, it received a request for an improvement report and disclosure measures from the Tokyo Stock Exchange, Inc. She was unaware of the facts surrounding the violation until they came to light. However, she had consistently emphasized the importance of compliance with laws and regulations at board meetings and other forums. Following the discovery of the violation, she fulfilled her duties by making appropriate recommendations regarding measures to ensure strict compliance with laws and regulations and prevent recurrence.
8. The Company has concluded an agreement with Hiroshi Matsuhisa, and Reiko Nakayama to limit their liabilities for damages under Article 423, Paragraph 1 of the Companies Act in accordance with the provisions of Article 427, Paragraph 1 of the Companies Act. The maximum amount of liability for damages under such agreement shall be the minimum amount of liability under Article 425, Paragraph 1 of the Companies Act. If Hiroshi Matsuhisa and Reiko Nakayama are reappointed, the agreement will be continued. In addition, if the election of Eiji Kakiuchi is approved, the Company intends to enter into a similar agreement with him to limit his liability.
9. The Company has concluded an indemnification agreement with Takayo Kotani, Kota Oda, Yasushi Kitagawa, Tomohiro Inano, Hiroshi Matsuhisa and Reiko Nakayama to guarantee the expenses set forth in Article 430-2, Paragraph 1 of the Companies Act and the loss set forth in Item 2 of that paragraph to the extent stipulated by laws and ordinances. If the reappointment of each candidate is approved, the Company plans to continue the agreement with each person. In addition, if the election of Eiji Kakiuchi is approved, the Company intends to enter into a same indemnification agreement with him.
10. The Company has concluded Directors and Officers Liability Insurance (hereinafter referred to as "D&O Insurance") as stipulated in Article 430-3, Paragraph 1 of the Companies Act with an insurance company. The insurance will cover any damages, etc. (However, damages that fall under the reasons for exemption specified in the insurance contract are excluded.) that Directors are liable for damages due to their work. The Company bears the entire premium for D&O insurance. If Takayo Kotani, Kota Oda, Yasushi Kitagawa, Tomohiro Inano, Hiroshi Matsuhisa, and Reiko Nakayama are reappointed, they will continue to be insured by D&O insurance. In addition, if the election of Eiji Kakiuchi is approved, he will continue to be insured by D&O insurance. The contract period for D&O insurance is one year, and it will be renewed after a resolution by the Board of Directors before the expiration of the period.

Business Report

(from April 1, 2025 to March 31, 2026)

1. Current Business Conditions

Net sales 23,101 million yen (11.6)% Y/Y	Operating profit 826 million yen (68.0)% Y/Y
Ordinary profit 908 million yen (64.2)% Y/Y	Profit attributable to owners of parent 286 million yen (83.1)% Y/Y

(1) Progress and achievements

During the interim period under review, the global economy remained uncertain, affected by factors such as U.S. tariff policies and soaring energy and raw material prices.

In this environment, our Group continued its efforts to develop new customers worldwide. However, Net sales have remained sluggish, while orders have increased mainly in custom-ordered equipment and sales of robots have increased in certain regions of Asia. As a result, consolidated Net sales decreased by 11.6% year-on-year to 23,101 million yen. In terms of profits, Operating profit decreased 60.8% year-on-year to 826 million yen and Ordinary profit decreased by 64.2% year-on-year to 908 million yen, due to the impact of the decrease in consolidated Net sales and the increase in personnel expenses due to proactive investment in human resources and in research and development expenses associated with development investments, both aimed at medium- to long-term growth. In addition, the Group recorded Gain on sale of investment securities as Extraordinary income, due to partial sale of investment securities aimed at reducing our strategic shareholdings and Impairment losses as Extraordinary loss, due to re-evaluated the future recoverability in light of changes in the business environment related to the consolidated subsidiary, WEMO Automation AB. As a result, Profit attributable to owners of parent decreased by 83.1% year-on-year to 286 million yen.

(5) Issues to address

As for the external environment surrounding our Group, capital investment demand remains weak in some regions such as the United States and Europe, and the global economy remains uncertain, but the trend toward production automation aimed at improving labor safety, increasing production efficiency and solving labor shortages is expected to continue worldwide in the medium to long term.

In this environment, our Group will aim for further growth as a leading company in the take-out robot industry.

To achieve this, we need to expand sales of take-out robots by strengthening global sales development and product competitiveness. To strengthen global sales development, we will use WEMO Automation AB in Sweden as a foothold to increase our market share in Europe, and in other regions, we will also gather accurate market information to increase our global market share. To strengthen our product competitiveness, we will continue to develop products that provide higher added value in the automation of our customers' factories. For palletizing robots, we will strengthen sales activities to promote understanding of the advantages of Cartesian robots among a wide range of users. In the area of custom-ordered equipment, we will continue to expand sales in response to growing automation needs in Japan and overseas due to labor shortages and rising labor costs, by strengthening our internal structure. In maintenance services, we will further strengthen our global network, which is one of our strengths.

Furthermore, as human capital is important for promoting these initiatives, we will promote human resource development with a focus on hiring and instilling our corporate philosophy. Also, in the aspect of promoting sustainability, we will actively make efforts to reduce various kinds of risks, mainly through activities of four subcommittees under the Sustainability Committee established in March 2025: Compliance, Human Rights, Crisis Management, and IT Security.

The insurance will cover the damages, etc. (However, damages that fall under the disclaimer stipulated in the insurance contract are excluded) when the insured persons become liable for damages due to business operations. The Company bears the entire premium for D&O insurance.

(2) Policy for determining the content of remuneration and others for Directors

At a meeting of the Board of Directors held on March 7, 2022, the Company reviewed the remuneration system for Directors and resolved a policy for determining the details of remuneration, etc. for individual Directors in accordance with the resolution of the General Meeting of Shareholders. In passing such resolutions at the meeting of the Board of Directors, the details to be resolved are deliberated by the Nomination and Remuneration Committee in advance.

The new system enhances objectivity and fairness in the remuneration decision-making process and clarifies the policy to concretize a medium- to long-term performance-linked remuneration system based on the degree of achievement of the medium-term management plan and improvement in corporate value, while promoting the formulation and implementation of the plan.

The Board of Directors has confirmed that the method of determining the content of remuneration, etc. and the content of remuneration, etc. determined are consistent with the relevant decision policy and that the report from the Nomination and Remuneration Committee has been respected, and has determined that the content of remuneration, etc. for individual Directors for the relevant fiscal year is in line with the relevant decision policy.

- [1] Policy for determining the amount of remuneration, etc. for each Director and the method of calculation thereof

Remuneration for Directors of the Company consists of monthly remuneration, short-term performance bonuses, and medium-term performance and stock price-linked bonuses.

Monthly remuneration is determined by the Representative Director and President, who is delegated by the Board of Directors, based on the evaluation of Directors determined through deliberations by the Nomination and Remuneration Committee within the monthly remuneration range (upper and lower limits) for each position.

Short-term performance bonuses and medium-term performance and stock price-linked bonuses are determined by the Representative Director and President delegated by the Board of Directors based on a formula determined by the Nomination and Remuneration Committee and the Board of Directors, and based on the evaluation of executives determined through deliberations by the Nomination and Remuneration Committee.

Remuneration, etc., for External Directors consists of fixed remuneration, and it is our policy not to pay performance-linked remuneration from the viewpoint of independence for business execution.

- [2] Details of the performance indicators pertaining to the performance-linked remuneration, etc. and the method of calculating the amount or number of such performance-linked remuneration, etc.

Short-term performance bonuses are determined by multiplying the basic amount by a performance coefficient based on the achievement of consolidated ordinary profit by position, and by reflecting the Director evaluation, who are evaluated on their overall contribution based on target management evaluation and qualitative evaluation.

The medium-term performance and stock price-linked bonuses are determined based on the basic amount by position, reflecting the medium-term performance coefficient based on the growth rate of "Earnings Per Share (EPS)" and the stock price-linked coefficient based on the growth rate of the stock price.

- [3] Policy on determining the ratio of remuneration, etc. to the amount of remuneration, etc. for each Director

The ratio of remuneration to the amount of remuneration, etc., is set by position with reference to the external standards of companies in the same industry and of the same size as the Company.

- [4] Policy on determining the timing and conditions of remuneration, etc. to be paid to Directors

As for the timing of payment of remuneration, monthly remuneration is paid monthly, and short-term performance bonus is paid once a year based on the basic amount for each position, reflecting the performance coefficient and Director evaluation. The medium-term performance and stock price-linked bonus is paid once a year, reflecting the medium-term performance coefficient and the stock price-linked coefficient, based on the basic amount for each position.

[5] Matters concerning the delegation of decision on the details of individual remuneration, etc. of Directors

The amount of remuneration, etc. for Directors is determined by the Representative Director and President, who is delegated by the Board of Directors, based on the Director evaluation determined through deliberations by the Nomination and Remuneration Committee, which serves as an advisory body to the Board of Directors. The authority of the Representative Director and President is to determine the amount of each Director's monthly remuneration and the evaluation and distribution of bonuses based on performance. The Nomination and Remuneration Committee deliberates in advance on important policies, and the Representative Director and President makes decisions on the delegated matters based on the Committee's deliberations. The Company believes that this constitutes a measure to ensure that authority is exercised appropriately.

The Nomination and Remuneration Committee is chaired by Yasuo Nishiguchi, an External Director, and its other members are Takayo Kotani, Representative Director and President; Hiroshi Matsuhisa, an External Director; and Reiko Nakayama, an External Director.

No other non-monetary remunerations are paid to the Directors.

(3) Total remuneration and others of Directors and Corporate Auditors

Classification	Total remuneration and other payments (Thousands of yen)	Total amount by type of remuneration and other payments (Thousands of yen)			Number of target Directors/ Corporate Auditors
		Fixed remuneration	Performance-linked remuneration, etc.	Non-monetary remuneration, etc.	
Directors (Excluding External Directors)	110,466	102,966	7,500	-	4
External Directors	16,800	16,800	-	-	3
Subtotal	127,266	119,766	7,500	-	7
Corporate Auditor (Excluding External Corporate Auditors)	12,000	12,000	-	-	1
External Corporate Auditors	7,200	7,200	-	-	2
Subtotal	19,200	19,200	-	-	3
Total	146,466	138,966	7,500	-	10

Notes:

- The 48th Ordinary General Meeting of Shareholders held on June 22, 2021 resolved total remuneration for all Directors within 700,000 thousand yen per year (including remuneration for External Directors within 100,000 thousand yen). At the end of the General Meeting of Shareholders, the number of Directors was eight (8) (including three (3) External Directors). There are currently no Directors who have concurrent employment positions.
- The 43rd Ordinary General Meeting of Shareholders held on June 20, 2016 resolved total remuneration for all Corporate Auditors within 100,000 thousand yen per year. At the end of the General Meeting of Shareholders, the number of Corporate Auditors was four (4).
- Short-term performance bonuses are determined by multiplying the basic amount by a performance coefficient based on the achievement of consolidated ordinary profit, based on the position-by-position basis, and by reflecting the Director evaluation, who are evaluated on their overall contribution based on target management and qualitative evaluation. In addition, medium-term performance and stock price-linked bonuses are determined based on the basic amount by position, reflecting a medium-term performance coefficient based on the growth rate of “net earnings per share (EPS)” and a stock price-linked coefficient based on the growth rate of the stock price. The performance indicators are selected because they are indicators that are important to YUSHIN Group and should be considered in both the short and medium term. (The target for the consolidated ordinary profit index, which is the main index for performance-linked remuneration in the current fiscal year, is 2,200,000 thousand yen, and the actual amount is 908,263 thousand yen.)
- As for the procedure for determining the amount of remuneration, etc., for Directors, within the monthly remuneration range (upper and lower limits) for each position, monthly remuneration is determined by Takayo Kotani, Representative Director and President, who is delegated by the Board of Directors, based on the Director evaluation determined through deliberations by the Nomination and Remuneration Committee. The short-term performance bonus and the medium-term performance and stock price-linked bonus are determined by Takayo Kotani, Representative Director and President, as delegated by the Board of Directors, based on the calculation formula determined by the Nomination and Remuneration Committee and the Board of Directors, and based on the evaluation of the executives as determined through deliberations by the Nomination and Remuneration Committee. The reason for the delegation was that the Company determined that Representative Director and President was the most appropriate person to evaluate the duties of each Director in charge, while taking into consideration the Company’s overall performance and other factors.

The maximum amount of liability for damages based on the contract is the minimum amount stipulated by law.

5. Policy for Determining the Distribution of Surplus

We regard the return of profits to shareholders as one of the most important management issues in the operation of its business.

As a policy, we aim to achieve a consolidated dividend payout ratio of 30% or more in order to realize stable and continuous shareholder returns. At the same time, we aim to improve consolidated performance and raise the level of ordinary dividends by enhancing internal reserves so that we can make flexible and sustainable investments as needed, and by prioritizing a certain amount of investment each year in research and development, which will determine future corporate value. The Board of Directors is the decision-making body for both interim and year-end dividends.

In light of the business results for the current fiscal year and the above policy, we paid an interim dividend of 10 yen per share and a year-end dividend of 10 yen per share, for a total annual dividend of 20 yen per share for the current fiscal year. As a result, the consolidated dividend payout ratio for the current fiscal year is 232.71%.

Palletizing Robot Case Studies

We have published case studies of palletizing robot on our website.

Through interviews, we introduce the initiatives and outcomes achieved by customers who have adopted our palletizing robots to address labor shortages and reduce workload in logistics and shipping operations.

The content also highlights the expanding range of applications in which our products are utilized, so we encourage you to take a look.

<Case Study: Renkon 3 Kyodai Co., Ltd.>

At this company, which produces and sells “Bihada Renkon” (lotus root known for its skin-beautifying properties), the decision was made to pursue mechanization with a view to the future. This was driven by the need to address challenges such as physically demanding agricultural work, labor shortages, and the risk of operational disruption due to sudden employee turnover. As part of this initiative, our palletizing robot was introduced.

During the installation process, one challenge with articulated robots was the requirement to arrange pallets in a semicircular layout, necessitating a large installation footprint. In contrast, our Cartesian robot was highly evaluated for its space-saving design, allowing pallets to be arranged in a straight line.

With the introduction of this robot, human errors such as incorrect stacking of products during manual operations have been dramatically reduced, eliminating shipping-related issues. This has contributed to improved operational efficiency and enabled automation that supports the company’s future production expansion plans.

<Case Study: Panasonic Energy Co., Ltd.>

At a factory operated by this company, which manufactures dry batteries, our palletizing robot was adopted as part of the introduction of an automated transport and automated warehouse system associated with the launch of a new plant.

During implementation, it was necessary to achieve highly efficient automation under complex conditions within a short period. To address these challenges, we proposed a highly flexible, general-purpose robot leveraging our design capabilities. In addition, through prompt responses to inquiries and close coordination with all related parties, we successfully completed the installation within the planned short delivery timeline.

Following installation, the robot has continued stable operation without any issues for approximately two years, contributing to the establishment of an automated transport system and a reduction in labor requirements.

Exhibit at the 2025 International Robot Exhibition

We exhibited at the “2025 International Robot Exhibition” held at Tokyo Big Sight from December 3 to 6, 2025. The number of visitors reached 156,110, an increase of approximately 5.4% compared to the previous event, creating a very lively atmosphere.

Our company showcased the palletizing robot “PA-50LC (two-pallet specification),” highlighting its strengths in payload capacity and high-speed processing performance. Its quick and smooth movements attracted the attention of many visitors and received high praise. The exhibition also provided an opportunity to enhance recognition that “when it comes to palletizers, YUSHIN means Cartesian robots.”

Going forward, we will continue to expand our points of contact with customers through exhibitions and promote initiatives aimed at increasing our share in the palletizing robot market.
